

‘Young Chef Awards’

The School Young Chef Awards are an innovative and exciting programme of awards for schools, children and families.

The 3 awards for different year groups have been written by teachers for teachers and are mapped to the Early Years Foundation Stage/ ‘Cooking and Nutrition’ curriculum and the new statutory RSE Health Education Guidance (2020).

Each award contains 5/6 stand-alone lessons that can be delivered during an enrichment week, weekly or across a school year. Once signed up schools receive everything required to deliver the award including web based and printed material.

Children learn age appropriate chef skills, hygiene, safety, where food comes from and the importance of food for health. Links to other curriculum areas include English, Science, Maths and Geography.
